

PROFILE

I am passionate about building excellent software that improves the lives of those around me. I specialize in creating software for clients ranging from individuals, universities, government and small businesses all the way to large enterprise corporations. All of my work is produced locally from Indonesia, Yogyakarta.

WORK EXPERIENCE

WEB DEVELOPER AT LAYANA COMPUTINDO SENTRATAMA

2019-2020

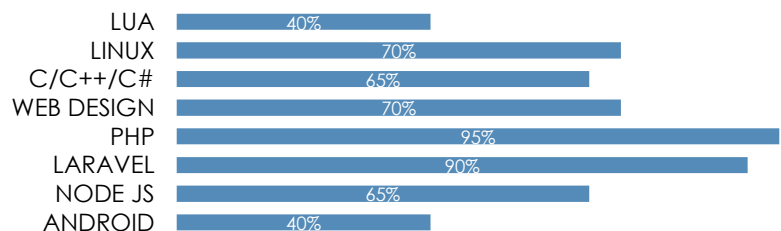

I work as web developer in this company. I build REST API for android application and I also build responsive web using Laravel or Lumen.

LAB ASSISTANT AMIKOM YOGYAKARTA UNIVERSITY

2018-2019

I help students to understand the lesson from lecturer and fixing the error from students so they can understand the lesson.

SKILLS

RECENT PROJECT

SEKOLA.ID

Android Application for Monitoring student activity. I build REST API and web admin using LUMEN with PSR12 .

Kartuvirtual.com

Android Application for easier payment than paper money. I build web view for android and connecting it to REST API (LARAVEL).
